VITAL STATISTICS, 1915.

FIFTY-SIXTH ANNUAL REPORT

OF

THE GOVERNMENT STATISTICIAN.

NORMAN JAMES MACLEOD, Government Statistician.

PRESENTED TO BOTH HOUSES OF PARLIAMENT BY COMMAND.

BRISBANE:

BY AUTHORITY: ANTHONY JAMES CUMMING, GOVERNMENT PRINTER.

—
1916.

G.A. 108—1916.

FIFTY-SIXTH REPORT OF THE GOVERNMENT STATISTICIAN ON THE VITAL STATISTICS OF QUEENSLAND.

TO THE UNDER SECRETARY, HOME DEPARTMENT, BRISBANE.

SIR,—I have the honour to furnish the Fifty-sixth Report on the Vital Statistics of the State:—

POPULATION.

The last census was taken on 3rd April, 1911, but several methods are adopted during intercensal periods to keep somewhat of a record of the population. Returns have been received from shipping companies and the railway officials at Wallangarra and Tweed Heads.

The population of the cities, towns, and shires of the State was as follows:—

A.

Local Government.

—								Males.	Females.	Persons.
Cities	68,611	72,954	141,565
Towns	44,879	45,639	90,518
Shires	211,453	156,840	368,293
Not Incorporated	1,267	302	1,569
Shipping	3,296	572	3,868
Total	329,506	276,307	605,813

Table 2, Appendix C, page 52 shows the ages in groups of the population of the State at the census on 3rd April, 1911. The following is a brief summary:—

B.

Ages.

Ages.								Males.	Females.	Persons.
Under 1 year	8,329	7,967	16,296
1 year and under 5 years	29,395	28,013	57,408
Total under 5 years	37,724	35,980	73,704
5 years and under 15 years	63,522	62,413	125,935
15 years and under 21 years	39,532	37,160	76,692
Total under 21 years	140,778	135,553	276,331
21 years and under 45 years	121,711	97,277	218,988
45 years to 75 years and up	65,035	42,293	107,328
Unspecified	1,982	1,184	3,166
Total State	329,506	276,307	605,813

Birthplaces and religions of the people are shown in Tables 3 and 4, Appendix C, pages 52 and 53 respectively. The following is a summary of the occupations given in detail in Table 5, page 54:—

C.

Occupations.

Class.								Males.	Females.	Persons.
Class I.—Professional	11,403	6,250	17,653
„ II.—Domestic	6,354	20,216	26,570
„ III.—Commercial	28,905	5,659	34,564
„ IV.—Transport and Communication	22,521	621	23,142
„ V.—Industrial	56,949	11,313	68,262
„ VI.—Primary Producers	98,721	3,183	101,904
„ VII.—Independent	2,027	731	2,758
„ VIII.—Dependants	98,359	227,711	326,070
Unspecified	4,267	623	4,890
Total	329,506	276,307	605,813

The estimated population of the State on 31st December, 1915 was 680,446 persons—males 361,312, females 319,134, as shown in the following table. The special allowance mentioned therein was adopted by the Commonwealth Statistician on the experience obtained during the last census.

A.

POPULATION OF THE STATE.

RETURN OF THE ESTIMATED POPULATION OF THE STATE OF QUEENSLAND ON THE 31ST DECEMBER, 1915.
(Not including full-blooded aborigines.)

Special Allowance based on last intercensal experience...	250	...	250			
Total Increase (or Decrease -) to Population during December Quarter	-9,191	-2,126	-11,317
Estimated Population on 31st December, 1915	361,312	319,134	680,446
Mean Population for the Year 1915	368,855	318,155	687,010

† Including allowance for unrecorded oversea departures. — Excess of Departures.

This showed an increase of only 3,739 persons for the year. Increases appeared during the first three-quarters, but the large decrease of 11,317 in December quarter reduced the increase to 3,739 (as above). During the first quarter 1,587 more males than females were added to the population. For the second and third quarters, more females by 3,346 and 1,343 respectively were added, whereas in the last quarter, as already stated, there was a decrease—both males and females. The result is that the male population declined by 0.88 per cent. and females increased by 2.23 per cent.

Aa.

Queensland	0.55	Western Australia	-1.55
New South Wales	0.38	Tasmania	-0.19
Victoria	-0.90	New Zealand	0.62
South Australia	-0.46		

- Decrease.

The ratio of increase to the population for 1915 Queensland, although considerably lower than last year, exceeded all other States in the Commonwealth.

The sex proportions of the population of each State of the Commonwealth were as follow:—

Ab.

State.	Estimated Population, 31st December, 1915.			Proportion of each sex in each 100 of the Population.		Proportion per cent. of the Population of each Federal State to the total Population of the Commonwealth.
	Males.	Females.	Persons.	Males.	Females.	
Queensland	361,312	319,134	680,446	53·10	46·90	13·80
New South Wales	951,389	917,259	1,868,648	50·91	49·09	37·90
Victoria	692,275	725,526	1,417,801	48·83	51·17	28·75
South Australia	213,455	226,205	439,660	48·55	51·45	8·90
Western Australia	171,304	146,712	318,016	53·87	46·13	6·45
Tasmania	101,761	99,264	201,025	50·62	49·38	4·07
Territories—						
Northern	3,687	876	4,563	80·80	19·20	0·09
Federal Capital	957	872	1,829	52·32	47·68	0·04
Total Commonwealth	2,496,140	2,435,848	4,931,794	50·61	49·39	100·00
New Zealand	563,963	533,831	1,102,794	51·14	48·86	
Total Australasia	3,060,103	2,974,679	6,034,782	50·71	49·29	

Two States—Victoria and South Australia, as in 1914—show a preponderance of females by 33,251 and 12,750 or more than six times and twenty times respectively in excess of the figures at the end of 1914. This position may be easily accounted for. Although the remaining four States have lost many of the male population by troops sent away, the females are still in the minority in those States. The ratio for the Commonwealth showed a decline and an increase of 1.03 for males and females respectively. The proportion per cent. of the Commonwealth population showed a slight increase in this State and New South Wales, but declined to a small extent in the other States.

Ac.

					Males to each 100 Persons.		Females to each 100 Persons.		Females to each 100 Males.
1880					58·71		41·29		70·32
1885					58·91		41·09		69·75
1890					56·93		43·07		75·65
1895					56·27		43·73		77·71
1900					55·63		44·37		79·77
1905					54·96		45·04		81·96
1910					54·38		45·62		83·89
1915					53·10		46·90		88·33

The ratio of females to males has further increased by 2.69 per cent. or 18 per cent. in 36 years.

The excess of births over deaths was 12,605, which bears a large percentage to the total increase to the population.

Ad.

SHOWING EXCESS of BIRTHS over DEATHS and of IMMIGRATION over EMIGRATION by SEA and OVERLAND by RAILWAY.—RETURN from 1862 to 1915.

* Figures adjusted after actual population ascertained by census. † Including allowances for unrecorded arrivals and departures.
† Including 1,000 males as well as the unrecorded departures allowed by Commonwealth Statistician.
— Excess of departures.

The progress of natural increase was not 2 per cent., and the excess of births over deaths in 1915 was less than in 1914 by 547—the first decrease during the last three years.

MIGRATION.

The arrivals by sea declined by over 28 per cent. and departures increased by nearly 1 per cent. By land, arrivals increased by 27 per cent. and the departures by 27.75 per cent. A summary of migration records is as follows:—

B.

Quarter.							ARRIVALS.								
							By Sea.			By Land.			Total Arrivals.		
							Males.	Females.	Persons.	Males.	Females.	Persons.	Males.	Females.	Persons.
First	5,328	2,726	8,054	20,417	11,927	32,344	25,745	14,653	40,398
Second	5,472	3,396	8,868	16,634	9,519	26,153	22,106	12,915	35,021
Third	4,159	2,421	6,580	12,345	7,234	19,579	16,504	9,655	26,159
Fourth	3,220	2,017	5,237	15,209	8,979	24,188	18,429	10,996	29,425
Totals	18,179	10,560	28,739	64,605	37,659	102,264	82,784	48,219	131,003

Quarter.							DEPARTURES.								
							By Sea.			By Land.			Total Departures.		
							Males.	Females.	Persons.	Males.	Females.	Persons.	Males.	Females.	Persons.
First	5,517	2,344	7,861	16,892	10,692	27,584	22,409	13,036	35,445
Second	8,331	2,034	10,365	14,952	8,754	23,706	23,283	10,788	34,071
Third	5,196	2,467	7,663	12,640	7,245	19,885	17,836	9,712	27,548
Fourth	7,844	2,876	10,720	21,001	11,662	32,663	28,845	14,538	43,383
Totals	26,888	9,721	36,609	65,485	38,353	103,838	92,373	48,074	140,447

N.B.—This table does not include the allowances made in framing population estimates.

In every 100 recorded arrivals nearly 14 males and over 8 females came by sea; and in the departures over 19 were males and nearly 7 were females.

By land about 49 males and nearly 29 females in every 100 arrived, and of departures the proportion was about 47 and 27.

Population in Financial Divisions.

The following table is not quite accurate. The correct figures will be given at the next census:—

C.

							Northern Division.	Central Division.	Southern Division.	Total State.
Population, Census 1911—										
Number—										
Males	67,945	43,538	218,023	329,506
Females	46,709	32,446	197,152	276,307
Persons	114,654	75,984	415,175	605,813
Proportion, per cent.—										
Males to total Males	20.62	13.21	66.17	100.00
Females to total Females	16.91	11.74	71.35	100.00
Estimated Population, 31st December, 1915—										
Males	74,503	47,741	239,668	361,312
Females	53,949	37,475	227,710	319,134
Total Persons	128,452	85,216	466,778	680,446

The population was distributed throughout the State in the following order:—Southern Division, 68.60 per cent.; Northern Division, 18.88 per cent.; Central Division, 12.52 per cent.—the females in the respective divisions being 33.46 per cent., 7.93 per cent., and 5.50 per cent.

Population—Metropolitan Area.

The Local Authorities within this Area courteously furnished returns of dwellings and people; the information obtained in this manner was carefully checked and revised:—

D.

							Males.	Females.	Persons.
City of Brisbane	20,227	20,660	40,887
City of South Brisbane	16,646	18,081	34,727
Suburbs	42,297	44,027	86,324
Brisbane Metropolitan Area (Ten-mile Radius)							79,170	82,768	161,938

The females in the Area of Greater Brisbane exceeded the males by 3,598. The proportion was, males, 48.89; females, 51.11—same as last year. The result was that the females in the Metropolitan population increased by 4,052 on 1914 figures.

Federal Effective Population.

This refers to the portion of a State's people who, under the Constitution Act, are eligible to vote for its representation in the Commonwealth Parliament. The last estimate by the Commonwealth Statistician, who determines the number that each State is entitled to on the effective population, was as follows:—

Da

State.	Effective Population 3rd April, 1911.	Quota.	Quotient and Remainder.		Number of Representatives.	
			Quotient.	Remainder.	Number as per Quota.	Statutory Number.
Queensland	594,514	61,547	9	40,591	10	10
New South Wales	1,646,734		26	46,512	27	27
Victoria	1,315,551		21	23,064	21	21
South Australia	408,558		6	39,276	7	7
Western Australia	274,841		4	28,653	4	5
Tasmania	191,211		3	6,570	3	5
Commonwealth	4,431,409	75

MARRIAGES.

During 1915 there were 6,141 marriages celebrated, which is an increase of 246 or 4.17 per cent. over 1914 and is the greatest number ever recorded in this State. While that is so, the proportion which the total marriages bear to the mean population is less than 1 per cent.—0.89. This figure, which previously appeared in the years 1883, 1884, 1885, and 1912, is, with exception of 1873—0.96—the highest proportion since 1867. Table V. of the Appendix shows the number celebrated in Registry Districts by each religious denomination. Those celebrated in the more important districts were as follow:—

E.

District.	Number.	District.	Number.
Brisbane	1,903	Warwick	168
Toowoomba	384	Cairns	157
Ipswich	356	Kennedy	153
Rockhampton	336	Mackay	148
Enoggera	312	Bundaberg	144
Townsville	288	Gympie	118
Maryborough	232	Oxley	103

Fourteen Registry Districts—being an increase of one on 1914—returned over 100 marriages during 1915. Brisbane, as usual, heads the list with 1,903, an increase of 80 on the previous year, and Oxley last of these districts with 103 marriages.

The following table shows the marriage rate since 1857:—

Ea.

Year.	Number of Marriages per 1,000 mean Population.	Year.	Number of Marriages per 1,000 mean Population.	Year.	Number of Marriages per 1,000 mean Population.
1857	8.2	1877	7.6	1897	6.0
1858	9.4	1878	7.0	1898	6.0
1859	9.3	1879	7.5	1899	6.8
1860	10.8	1880	7.0	1900	6.9
1861	10.2	1881	7.7	1901	6.6

New Zealand ...	8.67	...	8.85	...	8.25	...	8.51	...	9.12	...	8.68
* Included in South Australia. † Included in New South Wales.											

Queensland is in the fourth place this year, New South Wales and South Australia in first and second places respectively, and Victoria almost a tie with South Australia. On the average of the rates for the last five years, South Australia is in the first place, with New South Wales second, reversing the order of 1915, but Queensland kept her place.

The number of marriages performed by registrars or justices duly authorised declined by 22 in 1915. Brisbane Registry declined by 21, but there were increases in other places, namely—Balonne, 8; Cardwell, 10; whilst some increases appeared, notably, in Cairns, 10; Enoggera, 3; Mackay, 4; Oxley, 9; Toowoomba, 5.

The following gives the proportion of marriageable persons in each State at the last census (3rd April, 1911):—

E c.											
					Males.		Females.		Persons.		
Queensland	18.57	...	13.86	...	32.43		
New South Wales	16.22	...	15.35	...	31.57		
Victoria	15.30	...	18.75	...	34.05		
South Australia	15.02	...	16.92	...	31.94		
Western Australia	21.20	...	11.18	...	32.38		
Tasmania	13.70	...	15.40	...	29.10		

There must of necessity be a considerable alteration in above figures at end of 1915.

The following table shows the number of marriages celebrated by each of the leading denominations during the past 10 years:—

F.											
Denomination.	1906.	1907.	1908.	1909.	1910.	1911.	1912.	1913.	1914.	1915.	Total Ten Years.
Church of England ...	877	1,057	1,021	1,148	1,212	1,448	1,541	1,524	1,620	1,684	13,132

Hebrew ...	3	...	2	...	4	6	5	3	5	8	36
By Registrars and Marrying Justices ...	183	219	187	198	205	220	263	255	254	232	2,216
Totals ...	3,588	4,105	4,009	4,542	4,769	5,169	5,628	5,662	5,895	6,141	49,508

Marriages increased in 7 and decreased in 4 denominations (including those by law) on 1914 figures. The largest increase was under "Other Christian Sects"—75, or 34.49 per cent. of total increase. Other increases appeared in this order—Church of England, 26 per cent.; Baptist, 21.14 per cent.; Lutheran, 15 per cent.; Roman Catholic, 14.23 per cent.; Congregational, 9 per cent. Methodist, Presbyterian, and Salvation Army marriages declined by 1, 16, and 3 respectively. Hebrew marriages increased by 3. Most marriages took place during the fourth quarter of the year—1,632, followed by second quarter, 1,610; third quarter, 1,560; first quarter, 1,339.

Thirty-one per cent. of the total marriages in the State were celebrated in Brisbane Registry District. Toowoomba followed with 6.25 per cent.; then Ipswich, 5.80 per cent.; Rockhampton, 5.47 per cent.; and Enoggera, 5.08 per cent. Other districts had less than 300 marriages each.

The population proportion of religions and the proportion as to marriages celebrated by ministers of each denomination were—

Fa.

					Proportion per cent. each Denomination to total—	
					Population.	Marriages.
					Census 1911.	1915.
Church of England	35.11	27.42
Roman Catholic Church	22.63	19.67
Presbyterian Church	12.47	14.17
Methodist Church	9.89	16.59
Lutheran Church	4.00	2.90
Baptist Church	2.26	5.60
Congregational Church	1.72	3.00

The ratio of marriages celebrated by each denomination declined on 1914 figures, except of those by the Baptist, Lutheran, and Congregational churches, which show increases of 0.65, 0.51, and 0.25 per cent. respectively.

The following is a summary of age conditions of parties to marriage. Fuller information is given in Table VII. of the Appendix:—

Totals	6,141	315	130	164	220	389	491	559	559	557	492	2,265

Marriages of minors have increased over 1914 by 18 (boys), 66 (girls). Two boys of 16, 7 of 17, 19 of 18, 72 of 19, and 127 of 20 years became husbands.

Of husbands, 66.63 per cent. were between the ages of 21 and 29 years (both inclusive); 566 was the highest number—at age 25. From ages 26 to 38 there was a constant decline in husbands, reaching to a difference of 75 in one year. From 39 to 52 the numbers were irregular, but none less than 11 at any one year. There were 4 husbands at 53 years and 13 at 54 years, after which no double figures appear.

Of wives, about 45 per cent. (of total marriages) became so between the ages of 21 and 25 years (both inclusive).

Between the ages of 14 and 18 years (inclusive) more than 9 per cent.—559 girls—became wives, and from 14 to 20 years inclusive, above 22 per cent.—or 1,369 girls—entered the nuptial state, so that up to the age of 25 (women) about two-thirds of the total marriages took place. As in 1914 there were five wives, each of 14 years (two had husbands of 20 years and three at 22, 25, and 26 years respectively). A girl of 16 married a man of 54 years, proving that “crabbed age and youth” could “live together”—at all events for a time.

It has been stated that within the next few years there will necessarily be fewer marriages because of the wastage of men in the war. This might be so in Great Britain and in some of the old lands, but is not probable in Australia, as indications are not wanting that there will be an influx of immigration to these shores after peace has been declared.

In the view, as stated above, of the probability of fewer marriages in the future (in the Old World) it was suggested as an excellent idea if English parents would adopt the French system of dowries for daughters or have them trained so that they would be enabled to earn their own living. At the present time woman in Australia has many chances and would, doubtless, be able to support herself, but after the war there may be many changes, and one of them would be that the marriage rate would considerably increase, especially in Queensland.

There is no provision in the laws of this State for the registration of marriages abroad of members of the Australian Imperial Force and, as the Prime Minister has requested the Premier of Queensland to cause such to be made, a memorandum, as follows, was forwarded you (the word “abroad” has been taken to mean anywhere outside the Commonwealth):—

“‘FOREIGN MARRIAGE ACT, 1892.’

“Upon referring to clause 10 you will notice that a return of marriages is to be made once a year to the Registrar-General in England through the Secretary of State.

“As some members of the Australian Imperial Forces might be married in England, I would suggest that the Registrar-General there be requested (by the Prime Minister, of course) to supply the Commonwealth Minister of Defence with a certified copy, under his seal, of each and every such marriage in England and abroad, including those Imperial Force marriages (if any) in the British lines (see Clause 22, ‘Foreign Marriage Act’), and a similar request should be made to the Registrars-General in Scotland and Ireland *re* Australian Imperial Force members (if any) married in their countries. The Defence Department in Australia would then forward such sealed copies to the Registrars-General of the States in which the respective soldiers enlisted.

“In order that such marriages could be legally recognised in Queensland, it would be necessary to pass a short Enabling Bill, authorising the Registrar-General of Queensland to receive and register these certified copies of marriages.”

The mean age at marriage in 1915 was—all husbands, 28.21 ; bachelors, 27.43 ; all wives, 24.68 ; spinsters, 23.92.

Taking women's ages, 67.20 per cent. of total marriages took place at 25 years and earlier as against 67.80 per cent. for similar ages in 1914. As regards men, for same ages the proportions were 41.91 and 41.51 per cent. respectively. Between the ages of 16 and 45 years, both inclusive, the proportions are—men, 96.61 (5,933) ; women, 98.24 (6,033). The number of spinsters who marry does not vary much from year to year. Men chose more spinsters in 1915. The difference between bachelors and spinsters in 1915 was 3.51 against 3.92 in 1911. Nearly 20 per cent. of husbands married wives older than themselves—mostly by a year—but nearly 37 per cent. chose wives younger by 5 or more years.

Divorced Men to Widows	2	0·03	37·50	38·50
Divorced Men to Divorced Women
		Persons Married.		
Of all Males Married—Bachelors	5,839	95·08	27·43	...
Widowers	280	4·56	43·49	...
Divorced Men	22	0·36	39·14	...
Of all Females Married—Spinsters	5,825	94·86	...	23·92
Widows	295	4·80	...	38·77
Divorced Women	21	0·34	...	37·00
TOTAL PERSONS MARRIED	12,282	200·00	28·21	24·68

There were 12,282 persons married during 1915, of whom 5,839 (or 251 more than in 1914) were bachelors—14 in excess of spinsters—who bestowed their names upon 5,606 spinsters, 216 widows, and 17 divorced women. Two hundred and eighty widowers solaced themselves with 199 spinsters, 77 widows, and 4 divorced women, the last figure being the same as 1914. Spinsters and widows favoured 20 and 2 divorced men respectively. As in 1914, there was no record of divorced men marrying divorced women.

DIVORCES.

There was no record of the reasons for which divorces were granted, but the following particulars may be of interest:—

G c.

	1906.	1907.	1908.	1909.	1910.	1911.	1912.	1913.	1914.	1915.
Dissolutions	12	12	11	16	20	27	15	31	29	26
Divorcees Remarried	9	18	10	15	26	22	24	26	41	43

Twenty-six dissolutions were granted in 1915, 3 less than in 1914 and 5 less than 1913, which held the record since 1904; 43 divorcees (22 men, 21 women) remarried—2 more than in 1914—or nearly 83 per cent. of the number released by divorce. The number of divorcees remarrying has increased in five years, and in 1915 nearly doubled that in 1911.

MARRIAGES OF ILLITERATES.

From the above figures there is evidence that elementary education has progressed during the last five or six years, as the proportion of those signing the certificates by “mark” has decreased considerably.

If the number of uneducated coloured persons was omitted from the calculation, the proportion of others signing marriage certificates by “mark” would be materially reduced, the actual percentage being then 0.19 instead of 0.54.

I.

Year.	Number of Persons in each Year who signed Marriage Certificate with a Mark.				Proportion to each 100.

BIRTHS.

The births registered during 1915 numbered 10,442 males, 9,723 females, 20,165 persons, being an increase on those for 1914. The following table shows the births in the principal geographical divisions of the State for two years, 1914 and 1915:—

J.

BIRTHS, 1914 AND 1915.

Geographical Division.	1914.			1915.			Total Increase or —Decrease in the latter Year.	Females born to every 100 Males born in 1914.	Females born to every 100 Males born in 1915.

1910 ...	16,173	619	3·98	1915 ...	20,165	282	1·42

The births show a centesimal increase of 1·42 per cent. on those for the previous year or over twice that of 1914 over 1913.

Jb.

Females born to every 100 males born.				Females born to every 100 males born.			
1906	92·57		1911	95·14	
1907	95·09		1912	95·70	
1908	93·20		1913	96·53	
1909	95·50		1914	96·47	
1910	95·78		1915	93·11	

The ratio (93·11) shows a decrease on 1914, and if the ten years be reviewed shows that the ratio is variable.

The following table quotes the birth rate of the State at five year rests since 1860, and that the quinquennium ending with 1915—29·4 per thousand—shows an upward tendency since 1905, when only 25·9 was recorded.

K.

1860 ...	47·9	1880 ...	36·9	1900 ...	30·2
1865 ...	43·6	1885 ...	36·7	1905 ...	25·9
1870 ...	43·5	1890 ...	37·2	1910 ...	27·3
1875 ...	37·5	1895 ...	32·8	1915 ...	29·4

Ka.

	Birth Rate,					Average of the rates for the quinquennial period.
	1911.	1912.	1913.	1914.	1915.

New Zealand ...	25·97	26·48	26·14	25·99	25·33	25·98

* Included in South Australia.

† Included in New South Wales.

Queensland has the highest birthrate for all the Australian States for 1915—29.35 per thousand—with Tasmania coming next with 29.32 per thousand; but on comparing the average for the last quinquennial period the leading position is reversed—Tasmania first place, 29.96; Queensland, 29.29.

K b.

Census Year.	FEMALES 15 YEARS TO 45 YEARS OF AGE.		BIRTHS.		BIRTHS PER 1,000.		
	Married.	Unmarried.	Legitimate.	Illegitimate.	Legitimate Births to Married Females 15 years to 45 years of age.	Illegitimate Births to Unmarried Females 15 years to 45 years of age.	Total Births to all Females 15 years to 45 years of age.
1861 ...	5,788		245.85
1871 ...	15,502	6,830	5,074	131	327.31	19.18	233.07
1881 ...	24,178	15,441	7,875	345	325.71	22.34	207.48
1891 ...	44,537	34,607	14,031	684	315.04	19.76	185.93
1901 ...	53,617	50,561	13,455	848	250.95	16.77	137.29
1911 ...	64,461	69,976	15,903	1,088	246.71	15.55	126.39

Particulars for the above table are only obtainable at census years and point to a marked decline in the birthrate, but in considering this other factors must be taken into account.

Illegitimate Births.

L.

					Males.		Females.		Persons.
First Quarter	151	...	128	...	279
Second Quarter	129	...	130	...	259
Third Quarter	153	...	160	...	313
Fourth Quarter	107	...	132	...	239
Total	540	...	550	...	1,090

Illegitimacy shows a decided decrease when compared with the figures for 1914, truly a matter for congratulation.

La.

1906 ...	7.68	1910 ...	6.37	1913 ...	6.15
1907 ...	7.31	1911 ...	6.40	1914 ...	5.86
1908 ...	7.45	1912 ...	6.14	1915 ...	5.41
1909 ...	6.99				

The percentage of illegitimate births to total births fell from 5.86 in 1914 to 5.41 last year, the lowest yet recorded.

The following table compares this information for the various States:—

L b.

		Per Cent. to Total Births.			Per Cent. to Total Births.
Queensland	...	5.41	Western Australia	...	4.24
New South Wales	...	5.07	Tasmania	...	4.96
Victoria	...	5.75	New Zealand	...	4.14
South Australia...	...	3.94			

Although Queensland with the lowest percentage recorded—5.41—there is yet much room for improvement in this direction. South Australia, with only 3.94 per cent., holds the most creditable position, and Victoria, with 5.75 per cent., comes last.

Legitimation.

The following table shows the number of children legitimated since the passing of the Act in 1899:—

L c.

District.	Prior to 1906.		1906.		1907.		1908.		1909.		1910.		1911.		1912.		1913.		1914.		1915.		Total.		
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	P.

	92	82	26	30	64	52	42	48	57	63	57	35	58	49	56	45	70	55	67	62	56	56	645	577	1,222
Totals {	151	115	55	63	101	78	73	81	94	85	78	60	86	71	78	71	100	78	102	92	94	90	1,012	884	1,896
	266		118		179		154		179		138		157		149		178		194		184	

It is noticeable that both the number of cases treated and the resultant deaths in the various public hospitals are largely on the increase notwithstanding the easier circumstances of the bulk of the population. In 1915, 35,685 cases, of whom 2,417 died, were recorded, an increase on 1914 of 3,889 cases and 357 deaths.

Passing by General Diseases, the Digestive System accounted for 5,154 cases, 344 deaths; Violence, 4,421 cases, 155 deaths; Respiratory system, 3,880 cases, 300 deaths; and the Genito-Urinary System, 2,799 cases, 226 deaths. Of the General Diseases, Typhoid Fever occupied first place with 1,291 cases, 132 deaths, followed by Rheumatism, 1,103 cases, only 5 of which terminated fatally.

Ma.

YEAR.	DEATHS.					
	Total Number.			Proportion of Total Deaths per 1,000 of Mean Population.		
	Males.	Females.	Persons.	Males.	Females.	Persons.
1906	3,212	1,883	5,095	10·99	7·83	9·56
1907	3,480	2,119	5,599	11·79	8·62	10·35
1908	3,500	2,180	5,680	11·54	8·65	10·23
1909	3,419	2,111	5,530	10·97	8·14	9·68
1910	3,595	2,150	5,745	11·13	7·99	9·70
1911	4,060	2,484	6,544	12·14	8·88	10·65
1912	4,305	2,616	6,921	12·56	9·05	10·96
1913	4,196	2,587	6,783	11·87	8·65	10·39
1914	4,132	2,599	6,731	11·32	8·39	9·97
1915	4,696	2,864	7,560	12·73	9·00	11·00

7,560 deaths were recorded in 1915, an increase of 829 deaths on the number for 1914, and the rate per thousand of the mean population rose from 9.97 in 1914 to 11.00 in 1915, the highest ratio shown in the above table.

M b.

		Rate in 1911.	Rate in 1912.	Rate in 1913.	Rate in 1914.	Rate in 1915.	Average of the Rates for the Quinquennial Period.
Queensland		10·65	10·96	10·39	9·97	11·00	10·59
New South Wales		10·39	10·87	10·91	10·14	10·50	10·56

Western Australia		10·20	11·07	9·35	9·41	9·28	9·86
Tasmania		10·15	10·73	10·87	9·67	10·11	10·31
Territories—							
Northern		*	19·95	17·49	21·59	22·03	
Federal Capital		†	4·91	4·49	4·16	6·89	
New Zealand		9·39	8·87	9·47	9·31	9·06	9·22

* Included in South Australia.

† Included in New South Wales.

The death rate of Queensland does not compare so favourably in 1915 as it did in 1914 with that of the other Australian States, with the exception of Victoria, where the rate was 0.10 above that recorded in this State.

Mortality Index.

The following table was unanimously decided to be compiled in each of the States of the Commonwealth, with the object of reducing the death rates to a common standard (that of Sweden has been adopted) to show how the results on the revised basis would compare with that country:—

M c.

Year.	Classes of Age.	% of Queensland Population at each Age Period, Census 1911.	Estimated Mean Population.	Number of Deaths.	Coefficient %.	% of Swedish Population at each Age Period.	Queensland Index %.
1915 ...	Under 1 year ...	2·69	18,481	1,290	6·98	2·55	1·78
	1 to 20 years ...	40·97	281,468	1,013	0·36	39·80	1·43
	20 to 40 „ ...	32·77	225,133	1,214	0·54	26·96	1·45
	40 to 60 „ ...	17·77	122,082	1,516	1·24	19·23	2·39
	60 years and upwards	5·80	39,846	2,527	6·34	11·46	7·27
	Totals ...	100·00	687,010	7,560	1·19	100·00	14·32

Thus, under the conditions obtaining in Sweden, the death rate for Queensland, instead of being 11.00, would have been 14.32, proving that our death rate is actually under normal.

Ages at Death.

Full information as to ages of the population who died is shown in several of the Appendix tables. The following gives a little information on this point:—

N.

Quarter.	Under 1 Year.		1 and under 5 Years.		5 and under 20 Years.		20 and under 40 Years.		40 and under 60 Years.		60 Years and upwards.		Unspecified.		Males.	Females.	Persons.
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.			
First Quarter ...	148	120	64	48	77	57	190	101	255	105	363	165	1,097	596	1,693
Second Quarter ...	151	118	52	43	54	41	160	127	245	116	391	201	4	...	1,057	646	1,703
Third Quarter ...	168	131	63	49	59	40	155	124	266	144	472	283	4	1	1,187	772	1,959
Fourth Quarter ...	250	204	130	99	70	67	225	129	267	114	410	237	3	...	1,355	850	2,205
Total Males ...	717	...	309	...	260	...	730	...	1,033	...	1,636	...	11	...	4,696
Total Females	573	...	239	...	205	...	481	...	479	...	886	...	1	...	2,864	...
Total Persons ...	1,290		548		465		1,211		1,512		2,522		12		7,560
Percentage each Age Group to Total each to each	15.27	...	6.58	...	5.54	...	15.54	...	22.00	...	34.84	...	0.23	...	100.00		
	...	20.01	...	8.35	...	7.16	...	16.79	...	16.72	...	30.94	...	0.03	100.00		
	17.06		7.25		6.15		16.02		20.00		33.36		0.16		100.00		

From the above table it will be seen that 17.06 per cent. of deaths were under 1 year, 7.25 between 1 and 5 years, 6.15 between 5 and 20 years, 16.02 between 20 and 40 years, 20.00 between 40 and 60 years, and 33.36, 60 years and upwards; 0.16 per cent. of the ages of persons who died were not supplied on certificates, mostly relating to coloured persons or remains found in the bush, &c.

True Infant Mortality.

It is satisfactory to note that the infant mortality recorded for 1915 was only 6.40 per cent. or about the same as for 1914.

O.

SHOWING TRUE INFANTILE MORTALITY.—RETURN FOR TEN YEARS.

1906.	1907.	1908.	1909.	1910.	1911.	1912.	1913.	1914.	1915.	Mean for the 10 years.
7.47	7.72	7.03	7.19	6.31	6.54	7.14	6.33	6.39	6.40	6.80

Of the ten years under review, that for 1910—6.31—was the most satisfactory, followed by 1913, 6.33; 1914, 6.39; and 1915, 6.40. The difference between 1910 and 1915—0.09—is so small that infant mortality appears to have reached, if not a minimum, at any rate, a standstill.

O a.

1875	12.46	1900	10.31
1880	12.98	1905	9.89
1885	13.64	1910	8.23
1890	12.65	1915	6.80
1895	11.07				

The above table shows the mean infantile mortality for the ten years obtaining since 1875 at five-year rests. In 1885 the highest rate was recorded, 13.64, and 1915, 6.80, showing that during the last 30 years the mortality of the very young has been reduced one-half, truly a satisfactory state of affairs.

The following table compares the infant mortality of all the States and New Zealand with each other:—

O b.

	1915.
Queensland ...	6.40
New South Wales ...	6.81
Victoria ...	6.88
South Australia ...	6.73
Western Australia ...	6.67
Tasmania ...	7.22
New Zealand ...	5.01

Omitting New Zealand (5.01 per cent.), Queensland holds the best position with 6.40 per cent., Western Australia, 6.67, being next, whilst Tasmania, with 7.22, appears at the bottom of the list. Thus, it seems that the climate of Queensland is more suited to infant life than her immediate neighbours. The following table shows the deaths of children under 2 years and under 5 years of age in certain localities containing the largest centres of population :—

P.

Registry District.	Number of Deaths in District.	CHILDREN UNDER 2 YEARS OF AGE.			CHILDREN UNDER 5 YEARS OF AGE.		
		Census 1911— Centesimal Ratio of Children under 2 years of age to Population of Dis- trict.	Number of Deaths in District.	Proportion per cent. to Total Deaths in District.	Census 1911— Centesimal Ratio of Children under 5 years of age to Population of Dis- trict.	Number of Deaths in District.	Proportion per cent. to Total Deaths in District.
Brisbane	1,982	4.39	397	20.03	10.24	453	22.86
Bundaberg	209	5.46	49	23.44	12.63	57	27.27
Enoggera	228	5.19	71	31.14	11.71	79	34.65
Gympie	154	5.25	40	25.97	12.75	45	29.22
Ipswich	468	5.05	81	17.31	11.53	98	20.94
Kennedy*	231	4.88	36	15.58	11.91	43	1.61
Mackay	160	5.66	28	17.50	12.93	34	21.25
Maryborough	230	4.88	40	17.39	11.63	52	22.61
Mount Morgan	111	6.47	30	27.03	14.74	35	31.53
Rockhampton	433	5.05	125	28.87	11.50	144	33.26
Toowoomba	507	5.31	114	22.49	12.18	130	25.64
Townsville	342	4.58	75	21.93	10.86	82	23.98
All Other	2,505	5.48	496	19.80	12.82	5.6	23.39
Totals	7,560	5.21	1,582	20.93	12.17	1,838	24.31

* Includes Charters Towers.

Of the 7,560 deaths recorded in 1915, 1,582 or nearly 21 per cent. were under 2 years of age and 1,838 or 24.31 per cent. under 5 years of age. The Registry District of Enoggera, as usual, holds the worst record, 31.14 per cent. under 2 years and 34.65 under 5 years, closely followed by Rockhampton, 28.87 and 33.26, and Mount Morgan, the great mining centre, 27.03 and 31.53 per cent. respectively.

The following table gives the actual death rate of persons in each successive age group, the mean population of 1915 being divided according to that obtaining at the 1911 census :—

Q.

Age Period.	Proportion of Popu- lation at each Age Period to Total Population, Census 1911.	Estimated Mean Popu- lation, 1915, at each Age Period on basis of Census Ratio.	Deaths, 1915.	
			Number.	Rate per 1,000 of Mean Population.
Under 1 year	2.69	18,481	1,290	69.80
1 to 2 years	2.52	17,313	292	16.87
2 to 3 „	2.31	15,870	134	8.44
3 to 4 „	2.34	16,076	60	3.73
4 to 5 „	2.30	15,801	62	3.92
Total under 5 years	12.16	83,541	1,838	22.00
5 to 10 years	10.48	71,999	171	2.38
10 to 15 „	10.31	70,831	113	1.60
15 to 20 „	10.49	72,067	181	2.51
20 to 25 „	10.40	71,449	303	4.24
25 to 30 „	8.68	59,632	311	5.22
30 to 35 „	7.22	49,602	289	5.83
35 to 40 „	6.30	43,282	308	7.12
40 to 45 „	5.73	39,366	307	7.80
45 to 50 „	5.12	35,175	385	10.95
50 to 55 „	4.08	28,030	410	14.63
55 to 60 „	2.74	18,824	410	21.78
60 to 65 „	2.05	14,084	451	32.02
65 to 70 „	1.66	11,404	477	41.83
70 to 75 „	1.16	7,969	509	63.87
75 and upwards	0.90	6,183	1,085	175.48
Unspecified	0.52	3,572	12	3.36
Total	100.00	687,010	7,560	11.00

Excluding the very young and the very old persons, the death rate is quite satisfactory. The age 10-15, with a ratio of 1.60 is the lowest recorded.

Birthplaces of Persons Dying.

Table XII. of the Appendix gives the birthplace of all persons who died in Queensland in 1915. The totals for the principal countries are shown hereunder:—

				R.	
				Centesimal Proportion to Total Population borne by each Nationality, Census of 1911. Proportion.	Number and Centesimal Proportion to Total Deaths borne by each Nationality, Year 1915. Number. Proportion.
Queensland	63·09	3,297 43·61
Other Australasian States, including New Zealand	11·07	655 8·66
England	11·23	1,427 18·88
Scotland	3·39	473 6·26
Ireland	5·22	948 12·54
Other British Possessions	0·56	51 0·67
Germany	1·98	299 3·96
Other Countries of Europe	1·28	174 2·30
China	0·90	90 1·19
Pacific Islands	0·16	40 0·53
Elsewhere	1·12	106 1·40
				100·00	7,560 100·00

Persons born in Queensland, as must be expected, contributed the largest percentage (43.61), especially as practically all children come under the category, followed by England, 18.88; Ireland, 12.54; and other Australian States and New Zealand, 8.66 per cent. respectively.

Table XIII. of Appendix gives further details of the occupations of persons who died in 1915. The following statement gives for five years an epitome of the eight principal classes:—

		R a.									
		YEARS.									
CLASSES.		1911.		1912.		1913.		1914.		1915.	
Class		M.	F.	M.	F.	M.	F.	M.	F.	M.	F.

„ V.—Industrial	...	56,949	11,313	17·28	4·09
„ VI.—Primary Producers	...	98,721	3,183	29·96	1·15
„ VII.—Independent	...	2,027	731	0·62	0·26
„ VIII.—Dependants	...	98,359	227,711	29·85	82·41
Unspecified	...	4,267	623	1·30	0·23
Totals	...	329,506	276,307	100·00	100·00

The percentage of occupations of persons at the census and at the time of death varies greatly, especially with respect to the females. This is caused through inaccurate information being supplied on the death certificates. Their occupations previous to their becoming ill are frequently ignored and “domestic duties” inserted instead.

Metropolitan Deaths and Death Rate.

City of Brisbane	40,502	952	*23·51
City of South Brisbane	33,881	568	†16·76
Suburbs	83,592	609	7·29
Brisbane Metropolitan Area (Ten-mile Radius)...						157,975	2,129	13·48
State						687,010	7,560	11·0

* The General and Children's Hospitals are in the City of Brisbane.
† The Diamantina and Mater Misericordiae Public Hospitals are in the City of South Brisbane.

The death rate of Brisbane and suburbs for 1915 was 13·48 or 2·48 per cent. above that for the whole State. This, I think, must be considered satisfactory, as the largest public institutions of the State for the treatment of the sick are contained within its area and people are prone to come to the large centres, where they receive the most up-to-date treatment it is possible to obtain, besides which the military camps and hospitals helped to increase the metropolitan death rate. The following table bears this statement out by showing the number of deaths in public institutions in the Metropolitan Area, a good many of which came from other parts of the State.

The number of deaths in public institutions is ever on the increase. Last year 535 males, 349 females, 884 persons were so recorded, being an increase on 1914 of 113. The largest institution is the General Hospital, which contributed 395 deaths during the year. The deaths occurring in private hospitals, of which a great number abound in the Metropolitan Area and military centres, are not tabulated separately but must collectively be considerable.

The following table gives information as to the staff and cost of maintenance of in-patients in some of the chief hospitals of the State, which are much availed of:—

S.													
Where Situated.	Number of In-patients.	Number of In-patient Days.	Cost of Administration and Management for In-patients.	Cost of each In-patient per Day.	HOSPITAL STAFF.								
					PAID.						HONORARY.		
					Medical.		Nursing.		Other.		Medical.		
					M.	F.	M.	F.	M.	F.	M.	F.	
Brisbane	6,055	107,219	£ 25,895	s. d. 4 10	5	..	3	88	39	45	19	..	
„ Children's	2,136	52,425	9,861	3 9½	1	1	..	53	3	25	9	..	
Bundaberg	725	14,829	3,549	4 9½	1	..	1	14	2	4	3	..	
Charters Towers	1,192	27,715	5,901	4 3	1	..	3	17	4	8	2	..	
Ipswich	1,276	25,562	5,324	4 2	1	20	7	9	9	..	
Mackay	1,128	22,560	6,014	5 4	1	..	2	21	2	8	2	..	
Maryborough	765	13,777	3,613	5 3	1	14	3	6	3	..	
Mount Morgan	1,040	15,476	5,846	7 6¾	1	..	2	17	4	6	
Rockhampton	1,160	22,812	7,243	6 4½	1	..	3	16	7	8	5	..	
Toowoomba	1,761	38,815	9,741	5 0½	1	..	3	33	7	22	8	1	
Townsville	1,662	30,558	9,191	6 0½	27	10	9	2	..	
Warwick	550	8,250	2,565	6 2¾	12	3	4	4	..	

The cost of each in-patient per day varied greatly in the above hospitals, Mount Morgan (7s. 6¾d.) being the highest, and the Hospital for Sick Children, Brisbane (3s. 9½d.), the lowest, or just one-half

of the former. The largest hospital—Brisbane General—only costs 4s. 10d. per day and, considering that many of the patients are under treatment for a lengthy period, the average cost of each in-patient therein is extremely satisfactory.

Causes of Death.

The following table gives for five years the deaths classified according to the fourteen classes of the Bertillon system:—

T.

TABLE comparing the PERCENTAGE which the several CAUSES of DEATHS bear to the TOTAL DEATHS in each YEAR.—RETURN for the FIVE YEARS.

Classes.		1911.	1912.	1913.	1914.	1915.

Mean Population each Year	...	614,352	631,577	652,555	674,932	687,010	...

In 14 cases the deaths numbered above 100, ranging from the highest recorded—Organic diseases of the heart 853 to Broncho Pneumonia 104—the former again heads the list with a total of 853 deaths—the greatest ever recorded—an increase on 1914 of 102 deaths. The strenuous condition of our present everyday life, no doubt, is the chief factor in making the disease so prevalent or, perhaps, we have learnt better medical methods for detecting heart troubles that previously would have been assigned to some other cause; but, as stated before, the term “heart failure,” which is given on many certificates, does not mean heart disease.

Diarrhœa and Enteritis under and over two years came second with a total of 684 deaths, an increase on the figures for 1914 of 132. This disease was a great contributor to infantile mortality last year, no less than 371 being under 1 year and 116 between 1 and 2 years. This preventable disease could very easily be still further reduced by systematic hygienic preparation of the food of infants, and not allowing children to be reared in unsuitable surroundings.

Congenital Debility, Premature Birth, &c.—This relates to infants only, and appears to be on the increase. Last year 494 deaths were returned, an increase on 1914 figures of 105.

Cancer, all kinds, came fourth on the list and claimed 443 victims, exactly the same number as recorded for 1914. This fell disease is on the up-grade, for in 1911 the number of deaths was 398. Various reasons are assigned for this, but it is most probable that better medical diagnosis is more responsible for the increase than the figures actually show. The following table gives in detail the ages at death and part of body affected, but no part of the body is immune to its attack.

No reason can be assigned for a person contracting this disease, whether through eating certain food, smoking or drinking, and thousands of pounds are spent annually in search of a specific cure, which, up to the present, has not been found.

T b.

RETURN showing the AGES of all PERSONS REGISTERED as DYING from CANCER of ALL KINDS during the Year 1915, together with the portion of the BODY affected thereby.

[illegible]

Tuberculosis, all parts.—This scourge claimed in 1915 384 deaths, an increase on 1914 of 51. At present this disease is about at a standstill, and, like cancer, no definite cure has yet been discovered, yet it can be lessened by preventive measures with those who suffer from it, especially if treated in the earlier stages.

The following table gives the birthplace and length of residence in the State of those who died from this cause:—

T c.

RETURN SHOWING BIRTHPLACES AND DURATION OF RESIDENCE IN QUEENSLAND OF PERSONS WHO DIED FROM THE UNDERMENTIONED CAUSES, 1911-1915.

Of the total deaths 275, or nearly 72 per cent., were residents of the State for 20 and more years, and only 11 had a residence of under 1 year, so that proves that the greater number of cases recorded were contracted within the State.

Senile Debility was responsible for 402 deaths last year, an increase on 1914 of 75. This, as its name implies, is a disease of the very old and is used by doctors when they are uncertain what organic disease exists, yet the organs are so weak that the patient simply fades away.

The preceding table shows the principal causes of deaths of old persons 75 years of age and upwards.

One thousand and eighty-five deaths of old persons are tabulated above, an increase on 1914 of 253. Senile debility heads the list with 291 deaths, followed by organic diseases of the heart, 175; acute and chronic bronchitis, 87; cancer, all kinds, 58.

Bright's Disease.—Although this disease has been steadily on the increase, yet the figures for 1915—296—show a reduction of 5 on those for 1914.

MARINE REGISTRATION.

There was only one birth registered as occurring at sea. This was on board the s.s. "Roscommon," off Thursday Island, in the month of March, and there was one death, a female of 72 years of age, on the s.s. "Orontes," in the Red Sea.

The following table shows the fees collected by public officers in connection with registration matters, and paid into Consolidated Revenue:—

Maryborough	39 14 0	39 1 0			
Red Hill	48 11 6	41 18 0	Total	£ 1,265 16 5	1,287 8 5

A rough record of the searches made gratuitously for other branches of the Public Service has been kept, and it has been determined that if the Statutory Fees had been credited to this Department some £500 would be added to the receipts shown above, and this is exclusive of copies of entries also issued without payment.

There are only two registrars at the present time outside the Public Service. These are shown below:—

U a.

RETURN showing the AMOUNT of FEES PAID to DISTRICT REGISTRARS of the STATE not under the PUBLIC SERVICE ACT during the Years 1914 and 1915 respectively.

Districts.	1914.	1915	Districts.	1914.	1915.
	£ s. d.	£ s. d.		£ s. d.	£ s. d.
Enoggera and Toowong ...	236 10 0	250 7 6	Oxley	86 2 0	95 2 0

The examination of entries in the Registers is systematically made by officers detailed for the purpose. During the year under review it was found that false information had been given with respect to 35 births, 23 marriages, and 5 deaths. It is to be regretted that when convictions in the courts of law are secured, the punishments are so nominal that little deterrent effect is produced on others.

N. J. MACLEOD,
Government Statistician.

Brisbane, 29th November, 1916.

GENERAL SCHEME OF CLASSIFICATION OF CAUSES OF DEATH.

CLASS I.—General Diseases.

1. Typhoid Fever.
2. Typhus.
3. Recurrent Fever.
4. Intermittent Fever.
- 4a. Malarial Cachexia.
5. Small-pox.
6. Measles.
7. Scarlet Fever.
8. Whooping Cough.
9. Diphtheria.
- 9a. Croup.
10. Influenza.
11. Miliary Fever.
12. Asiatic Cholera.
13. Cholera Nostras.
14. Dysentery.
- 14a. Epidemic Dysentery.
15. Plague.
16. Yellow Fever.
17. Leprosy.
18. Erysipelas.
19. Other Epidemic Diseases.
- 19a. Dengue.
20. Purulent Infection and Septicæmia.
21. Glanders and Farcy.
22. Malignant Pustule and "Charbon."
23. Rabies.
24. Tetanus.
25. Trichinosis, etc.
26. Pellagra.
27. Beri Beri.
28. Tuberculosis of the Lungs.
29. Tuberculosis, Acute Miliary.
30. Tuberculosis of the Meninges.
31. Tuberculosis, Abdominal, etc.
32. Pott's Disease.
33. White Swellings.
34. Tuberculosis of other Organs.
35. General Tuberculosis.
36. Rachitis.
37. Syphilis.
38. Gonococcc Dis.
39. Cancer, etc., of the Mouth.
40. Cancer, etc., of the Stomach and Liver.
41. Cancer, etc., Peritonæum, Intestines, etc.
42. Cancer, etc., of the Female Genital Organs.
43. Cancer, etc., of the Breast.
44. Cancer, etc., of the Skin.
45. Cancer, etc., of other Organs.
46. Other Tumours (excl. F. Genital Organs).
47. Acute Articular Rheumatism.
48. Chronic Rheumatism and Gout.
49. Scurvy.
50. Diabetes.
51. Exophthalmic Goitre.
52. Addison's Disease.
53. Leucæmia.
54. Anæmia, Chlorosis.
- 54a. Filaria.
55. Other General Diseases.
56. Acute and Chronic Alcoholism.
57. Lead Poisoning.
58. Other Chr. Poisonings due to Occupations.
59. Other Chronic Poisonings.

CLASS II.—Diseases of the Nervous System and of the Organs of Special Sense.

0. Encephalitis.
01. Simple Meningitis.
- 01a. Epidemic Cerebro-spinal Meningitis.
02. Progressive Locomotor Ataxia.
03. Other Diseases of the Spinal Cord.
04. Hæmorrhage of Brain, Apoplexy.
05. Softening of the Brain.
06. Paralysis without indicated cause.
07. General Paralysis.
08. Other Forms of Mental Alienation.
09. Epilepsy.
10. Eclampsia (non-puerperal).
11. Convulsions of Children under five.
12. Chorea.
13. Hysteria, Neuralgia, Neuritis.
14. Other Diseases of the Nervous System.
15. Diseases of the Eyes and Appendages.
16. Diseases of the Ear.

CLASS III.—Diseases of the Circulatory System.

77. Pericarditis.
78. Acute Endocarditis.
79. Organic Diseases of the Heart.
80. Angina Pectoris.
81. Dis. of Arteries, Atheroma, Aneurism, etc.
82. Embolism and Thrombosis.
83. Dis. of Veins (Varices, Varicose Ulcers, etc.)
84. Diseases of the Lymphatic System.
85. Hæmorrhage.

CLASS IV.—Diseases of the Respiratory System.

86. Diseases of the Nasal Fossæ.
87. Diseases of the Larynx.
88. Diseases of the Thyroid Body.
89. Acute Bronchitis.
90. Chronic Bronchitis.
91. Broncho-pneumonia.
92. Pneumonia.
93. Pleurisy.
94. Congestion of Lungs and Pul. Apoplexy.
95. Gangrene of the Lungs.
96. Asthma.
97. Pulmonary Emphysema.
- 97a. Miners' Phthisis.
98. Other Diseases of the Respiratory System.

CLASS V.—Diseases of the Digestive System.

99. Dis. of Mouth and associated organs.
100. Diseases of the Pharynx.
101. Diseases of the Œsophagus.
102. Ulcer of the Stomach.
103. Other Dis. of Stomach (Cancer excluded).
104. Diarrhoea and Enteritis (under two years).
105. Diarrhoea and Enteritis (over two years).
106. Ankylostomiasis.
107. Intestinal Parasites.
- 107a. Sprue.
108. Appendicitis.
109. Hernia, Intestinal Obstruction.
110. Other Diseases of the Intestines.
111. Icterus Gravis.
112. Hydatid Tumours of the Liver.
113. Cirrhosis of the Liver.
114. Biliary Calculi.
115. Other Diseases of the Liver.
116. Diseases of the Spleen.
117. Simple Peritonitis (non-puerperal).
118. Other Diseases of the Digestive System.

CLASS VI.—Diseases of the Genito-Urinary System and Adnexa.

119. Acute Nephritis.
120. Bright's Disease.
121. Chyluria.
122. Other Diseases of Kidney and Adnexa.
123. Calculi of Urinary System.
124. Diseases of the Bladder.
125. Other Dis. Urethra, Urinary Abscess, etc.
126. Diseases of the Prostate.
127. Non-venereal Dis. of Male Genital Organs.
128. Uterine Hæmorrhage (non-puerperal).
129. Uterine Tumour (non-cancerous).
130. Metritis and Other Diseases of the Uterus.
131. Cysts and other Ovarian Tumours.
132. Other Dis. of Female Genital Organs.
133. Non-puer. Dis. of Breast (Cancer excep.)

CLASS VII.—Puerperal Condition.

134. Accidents of Pregnancy.
135. Puerperal Hæmorrhage.
136. Other Accidents of Childbirth.
137. Puerperal Septicæmia.
138. Puerperal Albuminuria and Eclampsia.
139. Puerperal Phlegmasia Alba Dolens.
140. Other Puerperal Accidents, Sudden Death.
141. Puerperal Diseases of the Breast.

CLASS VIII.—Diseases of the Skin and of the Cellular Tissue.

142. Gangrene.
143. Carbuncle.
144. Phlegmon, Acute Abscess.
145. Other Diseases of the Skin and Adnexa.

CLASS IX.—Diseases of the Organs of Locomotion.

146. Non-tuberculous Diseases of the Bones.
147. Arthritis and other Dis. of Joints.
148. Amputation.
149. Other Dis. of Organs of Locomotion.

CLASS X.—Malformations.

150. Congenital Malfor. (excl. of Stillborn).

CLASS XI.—Infancy.

151. Congenital Debility, Icterus, and Scleroma.
152. Other Dis. Pec. to Infancy (un. 3 mths).
153. Want of Care (Infants).

CLASS XII.—Old Age.

154. Senile Debility.

CLASS XIII.—Violence.

155. Suicide by Poison.
156. Suicide by Asphyxia.
157. Suicide by Hanging or Strangulation.
158. Suicide by Drowning.
159. Suicide by Firearms.
160. Suicide by Cutting Instruments.
161. Suicide by Precipitation from a Height.
162. Suicide by Crushing.
163. Other Suicides.
164. Poison by Food.
165. Vene. Creatures and other Acute Poisons
166. Incendiarism.
167. Burns.
168. Noxious Gases.
169. Drowning.
170. Firearms.
171. Cuts and Stabs.
172. Falls.
173. Mines and Quarries.
174. Machinery.
175. Vehicles.
- 175a. Railway and Tramways.
176. Animals.
177. Starvation.
178. Cold.
179. Sunstroke.
180. Lightning.
181. Other Electric.
- 181a. Timber Felling, Logging, etc.
182. Murder by Firearms.
183. Murder by Cuts.
184. Murder, Other.
185. Fractures, etc.
186. Other Violence.
- 186a. Wounds received in Battle.

CLASS XIV. Ill-defined Diseases.

187. Organic Lesion (not Defined).
188. Sudden Death.
189. Unspecified or Ill-defined Causes of Death

INDEX TO TABLES.

Head.	Particulars given in Table.	Table.	Page.
APPENDIX A.			
Population	Synopsis of Vital Statistics from 1856	1 to 5
Population	Estimated for 1914 and 1915, Estimated Mean for the year	I.	6
Births	Number Registered during each Quarter	II.	6
Metropolitan Area	Mean Population, Births, Deaths, and Marriages for Ten years	III.	7
Marriages	Number Registered during each Quarter	IV.	7
"	Number Registered, showing the Denominations	V.	8
"	Showing the Birthplace or Race of the Persons Married	VI.	9
"	" various Ages of the Persons Married	VII.	10 to 11
Deaths in the State	Showing the Number Registered during each Month of the Year in Age Groups	VIII.	12
"	" Number Registered during each Month of the Year according to Districts	IX.	13
"	" Number of Children, Male and Female, under Five years	X.	14
"	" Ages of Persons since 1860, also Mean Age at Death and Mean Age living	XI.	15
"	" Birthplace, &c., of Persons whose Deaths were Registered	XII.	16
"	" Occupations of Persons whose Deaths were Registered	XIII.	17
"	" Causes of Deaths, arranged in order of Degree of Fatality	XIV.	18 to 19
"	" Causes of Deaths of Males at different periods of life, Registered during the year	XV.	20 to 22
"	" Causes of Deaths of Females at different periods of life, Registered during the year	XVI.	23 to 25
"	" Causes of Deaths of Persons at different periods of life, Registered during the year	XVII.	26 to 28
"	" Causes of Deaths, Males and Females, Number Registered each Month	XVIII.	29 to 31
"	" Causes of Deaths of Males, Females, and Persons in the several Groups of Registry Districts	XIX.	32 to 37
Deaths in Brisbane	" Causes of Deaths, Males, at different periods of life, Registered within Metropolitan Area	XX.	38 to 40
"	" Causes of Deaths, Females, at different periods of life, Registered within Metropolitan Area	XXI.	41 to 43
"	" Causes of Deaths, Persons, at different periods of life, Registered within Metropolitan Area	XXII.	44 to 46
"	" Causes of Deaths, Males and Females, Registered during each Month of the Year, within Metropolitan Area	XXIII.	47 to 49
APPENDIX B.			
	District Registrars, List of, for 1915...	50
APPENDIX C.			
Census of Queensland	Showing the Population of Cities, Towns, and Shires, as returned at Census of 1911	I.	50 to 51
"	" Ages of the Population, as returned at Census of 1911	II.	52
"	" Birthplaces of the Population of Queensland, as returned at Census of 1911	III.	52
"	" Religions of the Population of Queensland, as returned at Census of 1911	IV.	53
"	" Occupations of Population of Queensland, as returned at Census of 1911	V.	54

A P P E N D I X A.

SYNOPSIS OF THE VITAL STATISTICS OF QUEENSLAND FROM THE YEAR 1856 TO 1915, INCLUSIVE.

POPULATION ON THE 31ST DECEMBER OF EACH YEAR, ITS INCREASE NUMERICAL AND CENTESIMAL, AND PROPORTION OF THE SEXES.																
YEAR.	POPULATION ON THE 31ST DECEMBER.			NUMERICAL INCREASE OR — DECREASE IN POPULATION OF 31ST DECEMBER.			CENTESIMAL RATIO OF INCREASE OR — DECREASE IN POPULATION OF 31ST DECEMBER.			Proportion of Females to each 100 Males in total Population of each year.	ADDITIONS TO POPULATION OF 31ST DECEMBER OF EACH YEAR, ARISING FROM EXCESS OF BIRTHS OVER DEATHS.			Centesimal Increase to Population of 31st December of each year from Excess of Births over Deaths.		
	Males.	Females.	Persons.	Males.	Females.	Persons.	Males.	Females.	Persons.		Males.	Females.	Persons.

* Excess of Arrivals over Departures; Complete figures not available.

† Excess of Departures.

SYNOPSIS OF THE VITAL STATISTICS OF QUEENSLAND FROM THE YEAR 1856 TO 1915, INCLUSIVE—continued.

YEAR.	DEATHS, THEIR PROPORTION TO MEAN POPULATION, THEIR ANNUAL, NUMERICAL, AND CENTESIMAL INCREASE.							INFANTILE MORTALITY, AND ITS PROPORTION TO MEAN POPULATION, ITS INCREASE OR DECREASE, NUMERICAL AND CENTESIMAL.								
	Male Deaths registered each year.	Female Deaths registered each year.	Total Deaths registered each year.	Numerical Increase or Decrease in Deaths of each year.	Centesimal Increase or Decrease in Deaths of each year.	Centesimal Proportion total Deaths bear to Mean Population of each year.	Number of Female Deaths to each 100 Male Deaths.	Number of Deaths under 1 year.	Below 2 years of age.	2 and under 5 years of age.	Total below 5 years of age.	Numerical Increase or Decrease in Deaths of Children below 5 years of age.	Centesimal Increase or Decrease in Deaths of Children below 5 years of age.	Centesimal Proportion Deaths of Children below 5 years of age bear to the total Deaths of each year.	Centesimal Proportion Deaths of Children below 5 years of age bear to Mean Population of each year.	Centesimal Proportion Deaths of Children under 1 year to Total Births, showing true infantile mortality.
